## TECHNICAL SKILLS

---

JavaScript	MaterialUI	API's	Express	GitHub	Bash/ZSH
TypeScript	Node.js	Bootstrap	SQL	HTML	JQuery
React.js	Redux	MongoDB	MySQL	GraphQL	JSON
Sequelize (ORM)	AJAX	Heroku	Git	Apollo	Netlify
Mongoose (ORM)	Styled Components		Axios	Bulma	Handlebars.js
Command Line (CLI)		Object Oriented Programming (OOP)		MVC Pattern	
Test-Driven Development		Responsive Design		Authentication	
CRUD Operations		RESTful Routing		Agile/SCRUM	

## EXPERIENCE

---

### **Developer in Residence:** Trilogy Education, August 2020 – Present, Remote

- Coach a diverse group of coding students on core principles of cutting-edge technologies and methodologies. JavaScript, Node, React, SQL, MongoDB, Express & developer tooling
- Review submitted code for grading based on file structure, acceptance of criteria, and use of best practices.
- Assist instructor with guided lessons and activities.

## DEVELOPMENT PROJECTS

---

### **Epic PT:** Full-Stack Web Application

Epic Physical Therapy is an application produced for Epic PT company as a freelance project.

- Contributed to the development of the Contact and Testimonial forms.
- Implemented database storage and automated email responses tied to Contact and Testimonial forms for various clinics.
- React.js, Redux, AWS-SES, Material-UI, MongoDB, MongoDB Atlas, Cloudinary

### **RocketList:** Full-Stack Web Application

- RocketList is a message board app that has built in chat functionality. You can login, make a post in one of many categories, and get replies from other users.
- I was the project manager of the group, outside of this my main responsibilities were setting up the UI of the app. I also set up Redux for the main state management.
- React.js, Redux, GraphQL, Apollo, Tailwind CSS, MongoDB, Express

### **Maple Valley:** Full-Stack Web Application

- Maple Valley is an app built to handle registration for the Maple Valley Girl Scout Camp
- Git Master in charge of building out the front end.
- Express, Express-Handlebars, Sequelize, MySQL, Bulma

## EDUCATION

---

### **Software Engineering Certificate:** University of Washington

12-week intensive program focused on gaining technical programming skills
